

AWARD FEE FINDINGS AND DETERMINATION

This constitutes a determination of award fee earned by Teledyne Brown Engineering under Contract NAS8-02060 with the George C. Marshall Space Flight Center.

The Performance Evaluation Board, acting under the authority of MSFC Management Announcement, has completed its evaluation of the contractor's performance under Contract NAS8-02060 for the period August 1, 2003 through January 31, 2004.

The Board's assessment of the contractor's performance and its recommendation to the undersigned Fee Determination Official for the stated period is a numerical rating of 90.9 or an adjective rating of Very Good and an award fee percent of 90.9. This rating equates to a recommended award fee in the amount of \$309,735.

FINDINGS

Upon a review of the Board's considerations in arriving at its recommendations and the contractor's response to the Performance Evaluation Board Report, I hereby find the 90.9 percent Very Good rating as recommended to be a proper assessment of the contractor's performance for the stated period.

DETERMINATION

Of the total award fee available, \$340,743 was applicable to the current evaluation period.

Based upon the findings set forth above, I hereby determine that Teledyne Brown Engineering is awarded fee, pursuant to Contract NAS8-02060 in the amount of \$309,735 for the period ending January 31, 2004.
